

Parent Bulletin

12th September 2025

We're excited to share the latest news and updates from Trafalgar following our first full week back! Earlier this week, our Year 11 students enjoyed the Trust event with Omar Sharif at Admiral Lord Nelson – a wonderful experience full of inspiration and insight.

For Year 11 families, we've included a full list of local college open events, complete with dates and times, to help with planning next steps. Across the school, students can check out the timetable for our autumn clubs and decide which ones they'd like to join this term. As the new school year gets underway, we're also reminding everyone of our food service points and what's included in a meal deal.

In addition, we've shared guidance from National College on supporting children when navigating conspiracy theories, and details of our annual trip to the Lille Christmas market.

Stay safe and take care,

Team Trafalgar

Year 11 Students Inspired by Omar Sharif

This week, Year 11 students from across Salterns Academy Trust came together at Admiral Lord Nelson School for a special visit from motivational speaker Omar Sharif.

Through his honest and powerful storytelling, Omar encouraged students to push past self-doubt, build resilience, and follow their ambitions with confidence. His message really struck a chord, giving students a boost of motivation and reminding them that they each have the strength to shape their own future.

The atmosphere in the hall was full of energy and positivity, and many students left feeling inspired and ready to take on the challenges ahead.

We are very grateful to Omar for giving his time and sharing such an uplifting message. His words have left a lasting impression on our young people as they take their next steps.

Key Dates

Autumn 2025

Thursday 18th September - Preparing for Year 11 Evening

Thursday 25th September - Year 7 Meet the Tutor Evening

Thursday 2nd October - Activities Week 2026 Launch
(virtual)

Uniform & Equipment

Please ensure your children have the correct uniform & equipment with them each day. If you require any support, contact your child's form tutor. Please ensure students have a bag. You can find full details of what they need [here](https://trafalgarschool.org.uk).

What Parents & Educators Need to Know about CONSPIRACY THEORIES

Conspiracy theories are false or misleading beliefs that explain events as secret plots, often involving powerful groups. While once fringe, they are now more accessible through digital media, online influencers and because of algorithmic recommendations. The DfE guidance document, 'Keeping Children Safe in Education' (KCSIE) explicitly recognises conspiracy theories as potential content risks. This guide will help parents and educators understand the risks, spot the signs, and build children's resilience to conspiracy theories.

WHAT ARE THE RISKS?

UNDERMINING TRUST

Conspiracy theories can lead children and young people to distrust democratic institutions and British Values, teachers, and even their own families and loved ones. This erosion of trust makes young people more vulnerable to extremist narratives by isolating them from reliable sources of information.

ONLINE ALGORITHM TRAPS

Social media platforms can often recommend sensationalist content. Once a child engages with one conspiracy-themed video or post, algorithms push more of the same, thereby creating an echo chamber that can intensify their beliefs.

MENTAL HEALTH IMPACT

Exposure to frightening conspiracy content, such as global plots, viruses, or government control, can fuel feelings of anxiety, paranoia, or hopelessness. For some young people, it can trigger prolonged distress or obsessive thinking.

GATEWAY TO EXTREMISM

Conspiracy theories can often overlap with extremist ideologies. Narratives that blame specific groups, such as politicians, scientists, or particular ethnic groups, can groom children in ways that foster hate, bigotry, and radicalisation.

CONFLICT WITH PEERS

Belief in conspiracy theories can lead to isolation or conflict at school. Children may struggle with peer relationships if they express these beliefs or become distrustful of others who disagree; sometimes, confrontation can even result in a strengthening of the belief in the conspiracy theory.

ERODED CRITICAL THINKING

Young people influenced by conspiracies may reject evidence-based learning. This risks undermining their academic progress and weakening their ability to think critically, assess risks, or engage in healthy debate.

Advice for Parents & Educators

CREATE SAFE CONVERSATIONS

Don't mock or dismiss any questions that children and young people ask about conspiracy theories. Instead, create open, judgement-free spaces to talk. This strengthens trust and makes it more likely they will confide in you.

PROMOTE CRITICAL THINKING

Teach young people how to assess information critically. Encourage them to ask appropriate questions, such as: Who is telling me this? What evidence is there? What do other trusted sources say? Use real examples from current media to explain your answers and reasoning.

MONITOR DIGITAL BEHAVIOUR

Be aware of the content children are accessing, especially on platforms such as TikTok, YouTube, or Reddit. Use parental controls, but more importantly, maintain ongoing dialogue about online experiences and influencers.

REINFORCE RELIABLE SOURCES

Point children toward trustworthy and reliable sources of news and information in a variety of formats tailored to the young person's age. Build habits of verifying facts using reliable sources, and teach them how to spot misleading content.

Meet Our Expert

Braden O'Keefe is a headteacher and digital education consultant with over a decade of experience in education. As Director of Digital Strategy across multiple schools and an advisor to The National College, he specialises in digital safety, PREVENT, and pastoral care.
